

US Culture Collection Network

An NSF research coordination network for a community of ex situ microbial germplasm repositories

2018 Meeting on Collection Data

**Tuesday, August 21, 2018**

10:00 AM Steering committee meeting

1:00 PM Opening session

Welcome      Kevin McCluskey, USCCN

                  Manzour Hasbon, ATCC

Big Data and culture collections

                  Greg Riccardi, IdigBio

                  Conrad Schoch, NCBI Taxonomy resources

Persistent Identifiers

                  Anita Bandrowski, RRID

                  George Garrity, Names for life

                  Juncai Ma, GCM

Evening Dinner

Overview of ATCC

Manzour Hazbón, ATCC.

**Wednesday, August 22**

9:00 AM Implementing data Standards

                  Linhuan Wu, ISO TC

                  David Nobles, UTEX data in GBIF

                  David Smith, CABI

## Collection Updates

Kimberly Webb, Backups at USDA NLGRP, Ft. Collins, CO

Jessie Glaeser, US Forest Service Center for Forest Mycology Research, Madison WI

Kyria Boundy-Mills, Phaff Yeast Culture Collection, UC Davis, CA

Hippokratis Kiaris, Peromyscus Stock Center, University of South Carolina, SC

1:30 PM

## Working groups

Posting data with iDigBio (and GBIF)

Implementing RRID Persistent identifiers

Support for generating genome DNA

Philanthropist support for USCCN

2019 CSBR RCN?

Evening Dinner on your own

## **Thursday, August 23**

### 9:00 AM Collection Updates

James Scott, UAMH update

Todd Ward, USDA NRRL Patent Collection

Jennifer Normanly, Plant Cell Culture Collection

Kevin McCluskey, FGSC update

### 1:00 PM Reports from the working groups/ discussion

Posting data with iDigBio (and GBIF)

Implementing RRID Persistent identifiers

Support for generating genome DNA

Philanthropist support for USCCN

2019 CSBR RCN?

### 3:00 PM Adjournment
